

## Future planning

Developed by Buddle, this workshop examines the impact of rising costs on clubs and organisations, offering insights into how others are adapting and accessing support.

### The need

This workshop provides a practical approach to effective planning, helping organisations define their goals and create a clear strategy for growth. Learners will explore the value and function of planning, identify who should be involved, and begin developing a plan using a simple framework.

Through reflection and discussion, learners will assess their current position, consider how a business plan approach can support future objectives, and access useful resources to strengthen their strategy.

By the end of the session, participants will leave with a tailored plan to guide their organisation's next steps.

### Key features

- Consider where the club or organisation is at right now, what it is trying to achieve and where it wants to go next.
- Consider how a business plan approach can support the club to move forward with its objectives.
- Plan a strategy to achieve their club or organisation's objectives
