

A background image showing two hands, one holding a small stack of coins. The hands are positioned as if about to exchange the coins. There are decorative blue and dark blue circles in the upper corners of the image.

Raising money

Developed by Buddle, this workshop explores effective fundraising strategies, from partnering with organisations to identifying local opportunities and mobilising your community.

The need

This workshop provides practical guidance on fundraising strategies to support your club or organisation's financial sustainability. Learners will explore various ways to raise money, including grant funding, and learn the key 'dos and don'ts' for securing financial support.

Through interactive discussions, attendees will assess their organisation's funding needs, compare different fundraising approaches, and develop a tailored plan to meet both short-term and long-term financial goals. By the

end of the session, participants will leave with actionable strategies to strengthen their organisation's financial future.

An orange rectangular box with a red circle in the top right corner, containing the 'Key features' section.

Key features

- Examine the club or organisation's funding needs and wants.
- Compare different ways a club or organisation can raise money.
- Devise a plan how the club or organisation can raise money towards its needs
